

Ti4.6

MACROM

10 x 15 cm 2 WAY COAXIAL

SPECIFICATIONS

Max Power:	80 W
RMS Power:	40 W
Frequency Response :	70 Hz - 22 kHz
Sensitivity	92 dB
Impedance	4 Ω
Dimensions :	10 x 15 cm
Mounting Depth:	
Grilles not included	

- **MAXIMUM POWER 80W**
40w RMS for use with a powerful head unit or a 20 to 40 W amp
- **TOTALLY ADAPTED TO ORIGINAL 10 x 15 CM CUTOUTS**
Very slim and easy to install in every car
- **POLYPROPYLENE CONE**
For better sound quality and a total insensitivity to humidity. The look is superb
- **ALUMINUM ARMED PVC BASKET**
For optimal sound quality results, the basket is a "dead noise" basket !
- **Ø25MM KAPTON VOICE COIL FOR THE WOOFER**
For better reliability thanks to the better cooling
- **BARIUM MAGNET**
Barium magnets are stronger than conventional magnets of the same size
- **REINFORCED SPIDER**
To increase the power handling
- **RUBBER SUSPENSION**
To improve the reliability over the years
- **NEW Ø13MM NEODYMIUM TWEETER WITH OPTIMIZED SHAPE**
For best response at high frequencies and to increase the sensitivity
- **FERROFLUID COOLED ALUMINUM VOICE COIL SUPPORT FOR TWEETER**
For homogeneous magnetic flux in the gap, to increase the cooling and to improve the reliability.
